

EUCI Presents a Web Conference on:

DEPLOYING A MOBILE GIS & WORKFORCE FOR UTILITIES

March 11, 2009 • 2:30 – 4:00 PM Eastern Time

AUTHORIZED IACET PROVIDER
EUCI is authorized by IACET to offer up to 0.1 CEUs for this program.

DEPLOYING A MOBILE GIS & WORKFORCE FOR UTILITIES

March 11, 2009

2:30 – 4:00 p.m. Eastern Time

OVERVIEW

Many companies located all over the United States have found there are varying degrees of rules and regulations for submitting reports to different state regulatory organizations. Most times there is a disconnect from the office to the field on what type of data is required and often times this will lead to numerous visits back to the job site to collect the correct data - each of these visits costing the company time and money. By connecting the office to the field, data is collected successfully in one trip and allows the company to take on more projects.

Petroleum Field Services, CartoPac Field Solutions and Spatial Solutions Group will use numerous examples and lessons learned on how to connect the field to the office. A summary will be given of what to plan for, what the typical workflow is that has proven successful, and how to strengthen the workflow process. One example that will be explored will be the recent changes in the Colorado Oil and Gas Conservation Commission (COGCC) for Oil & Gas Regulations, among others pertinent to the Municipal market.

WHO SHOULD ATTEND

Senior & Executive Management
Utility Operators
Project Managers
Operation Managers
Engineering
Regulatory & Legal Managers
GIS Analysts, Technicians, and Managers
Project Coordinators
Spatial Data Managers
Programmers
Oil & Gas Operators
Field Technicians

LEARNING OUTCOMES

- Identify the value of defining a data workflow for your mobile application before deployment of your mobile work force
- Identify the advantages in implementing mobile technology
- Discuss how mobile technology can be used to help meet the demands of both field and office personnel for various departments that work with field data collection
- Analyze how other companies have approached integrating a field data collection solution

PROGRAM AGENDA

During the course of this session the following topics will be covered:

- Review the typical data workflow and the challenges that companies face
- Identify the options that companies have with a mobile solution, along with the advantages and benefits of each option
- Discuss the various departments that can benefit from the use of a mobile technology.
- Use real-world examples of how mobile technology has proven invaluable to a project
- Uncover a total solution supporting field data collection
 - o Software
 - o Hardware
 - o Services
 - Field data collection
 - GIS services
 - Data integration services

IACET

EUCI has been approved as an

Authorized Provider by the International Association for Continuing Education and Training (IACET), 1760 Old Meadow Road, Suite 500, McLean, VA 22102. In obtaining this approval, EUCI has demonstrated that it complies with the ANSI/IACET Standards which are widely recognized as standards of good practice internationally.

As a result of their Authorized Provider membership status, EUCI is authorized to offer IACET CEUs for its programs that qualify under the ANSI/IACET Standards.

EUCI is authorized by IACET to offer up to 0.1 CEUs for this program.

Requirements for Successful Completion of Program

Participants must be logged in to the web conference for its entirety to receive continuing education credit.

Instructional Methods

Web based PowerPoint presentation and on-line interactive question/answer session.

DEPLOYING A MOBILE GIS & WORKFORCE FOR UTILITIES

March 11, 2009
2:30 – 4:00 p.m. Eastern Time

INSTRUCTORS

STEVE YOUNG, CEO/President, Petroleum Field Services, LLC (PFS)

Steve Young is the CEO of Petroleum Field Services, LLC. PFS is the leading provider of services in the Rocky Mountain Region supporting energy companies with Professional Land Surveying, Engineering, Field Data Collection, GIS Mapping, and Land Services. Satisfied clients range from multi-national top 10 energy companies to privately owned energy firms. While currently working on his Masters Degree in Global Energy Management at CU Denver, Steve also oversees one of the largest energy specific, Denver based staffing organizations and is a nationally recognized Certified Personnel Consultant.

SHARON ROGAN, President, Spatial Solutions Group

Sharon's GIS career has spanned 25-years of delivering solutions for enterprise petroleum mapping and data modeling. Sharon has held positions of Product Manager, Services Manager, Consultant and Developer for Petroleum companies and Data vendors. Currently, Sharon is focused on innovations for Field Infrastructure Data Management and efficiencies in regulatory mapping.

GLENN VLASS, President/Founder, CartoPac

Glenn Vlass is the president and co-Founder of CartoPac Field Solutions. Focused on field data collection using the CartoPac suite of technologies, Glenn has worked with small companies to large corporations in all phases of integrating field data with the GIS and other operational databases. Glenn graduated from Western State College in central Colorado with degrees in Geology and Business Administration. He spent extensive time in the field in Alaska, Wyoming and Colorado performing field surveys for exploration, permitting, mining and reclamation.

LOGGING IN TO THE WEB CONFERENCE

After registration, each registrant will receive a confirmation of payment or an invoice, depending on method of payment. Each registrant will also receive an e-mail with appropriate login information and more information regarding the event 24 hours prior to the start of the event. To log on, you will need a Windows PC with a broadband connection and audio system.

WHAT IS A SINGLE SITE CONNECTION?

A site connection allows a single connection to the web conference. That connection is open to any number of users in a collaborative setting. Because there are no travel expenses and only a single registration fee is required, each additional participant lowers the cost per participant significantly.

By purchasing a site connection, you can invite as many people as you would like to view and participate in the session from a single location. Set up the session in a conference room and project the presentation and chat on a large screen. You also have rights to distribute copies of the presentation materials to everyone involved. Please note that audio is received via the computer sound system and must be broadcast to your group.

If for any reason a relevant stakeholder cannot co-locate for the session, we encourage you to include that person by purchasing an additional connection at the reduced fee of \$195 per session. This will ensure that every member of a team receives the same relevant, timely information in the most efficient way.

If you have any technical or purchasing questions, please contact us at (303) 770.8800.

Time: 2:30 PM Eastern Time

United States Regional Start Times:

11:30 AM Pacific :: 12:30 PM Mountain :: 1:30 PM Central :: 2:30 PM Eastern

Use the time zone converter (<http://www.timezoneconverter.com/cgi-bin/tzc.tzc>) to find your correct start time.

DEPLOYING A MOBILE GIS & WORKFORCE FOR UTILITIES

March 11, 2009
2:30 – 4:00 p.m. Eastern Time

REGISTRATION INFORMATION

Mail or fax this form along with payment. You will receive a confirmation and/or invoice within 48 hours. Make checks payable to EUCI.

MAIL DIRECTLY TO:

EUCI
5555 Preserve Drive
Greenwood Village, CO 80121

ONLINE:

www.euci.com

FAX TO:

(303) 741.0849

PHONE:

(303) 770.8800

REFUND / CANCELLATION POLICY

All cancellations received prior to December 31, 2008 will be subject to a \$50 processing fee per web conference per registrant. Written cancellations received after this date will create a partial credit of the tuition good toward any other EUCI conference, publication or web conference. This credit will be valid for six months. No refunds will be given after December 31, 2008 in any case. In case of conference cancellation, EUCI's liability is limited to refund of the conference registration fee only.

PLEASE REGISTER THE FOLLOWING

- Deploying a Mobile GIS & Workforce for Utilities, March 11, 2009
Single Site Connection: \$345,
Early Bird On Or Before January 27, 2009: \$295
- Additional Connection: \$245,
Early Bird On Or Before January 27, 2009: \$195 each
Number of additional connections: _____
- I'm sorry I cannot attend, but please send me the recorded webinar on CD for \$295. (Please add \$50 for international shipping)

ENERGIZE WEEKLY

When you sign up for "Energize Weekly" you will receive a new conference presentation each week via email on a relevant industry topic. The presentations are selected from a massive library of over 1000 current presentations that EUCI has gathered during its 21 years organizing conferences.

- Sign me up for "Energize Weekly"**

How did you hear about this event?
(Direct email, Colleague, Speaker(s), etc.)
